

Muhammad Adeeb Azim Bin Mohd Nikman

(+60) 14 - 312 8588 · adzimnikman99@gmail.com · <https://adzim99.github.io>
Petaling Jaya, Selangor, Malaysia

A highly motivated BCompSc graduate with several data analytics certificates. Passionate about data analytics, web development and IT audit fields with proficiency in spreadsheets, documentation, databases, data visualisation and programming languages. Attention to detail and the ability to work effectively in a team where I seek opportunities to learn new things and apply my knowledge for better outcomes.

EXPERIENCE

Intern, IT Risk Assurance

Nov 2023 - Present

PwC Malaysia

Collaborate in a team with diverse backgrounds and communicate with clients, where I gain valuable networking opportunities. Some tasks include creating documentation for step-by-step data massaging guidelines, data audit by reviewing scripts and queries, building flowcharts to illustrate each process understanding and assisting the person in charge of evidence-gathering activities (EGAs) in Aura Platinum.

Associate, System Analyst

Aug 2022 - Jan 2023

Pipeline Network

Work alongside clients, subject matter experts (SME), developers and project managers by communicating with them about the designated project to ensure it goes smoothly by documenting the requirements, doing data transformation and creating dashboards. Next, follow through the Software Development Life Cycle (SDLC) as each phase significantly contributes to submitting deliverables before the deadline.

Intern, Analyst

Mar 2022 - Jul 2022

Setel Ventures

In the SWARM: POS team consists of a lead analyst and interns. The responsibilities are tracking, fixing, documenting and communicating with other departments to solve problems regarding the system and categorising any incoming flaws using various tools and software. Daily tasks include updating ticket bugs' status and gathering information for dashboard reporting to show the latest persistent day-to-day issues.
